1. For safety reasons the Marine Oil Terminal Naftoport has been divided into the areas outlined below. Everyone on the premises of the Marine Oil Terminal Naftoport is obliged to know the safety area visited and the rules to be followed there.
2. Characteristics of the areas:
  - Area A: Area where it is obligatory to use personal protective equipment in the form of safety helmets and protective footwear. Bringing any type of devices and tools not made by Ex, including wireless communication systems such as for example mobile phones and VHF radio is strictly prohibited.
  - Area B: Parking. Area where it is not obligatory to use personal protective equipment. Using mobile phones is allowed.
  - Area C: The meeting point. Places where the people are taken away by security service in case of an evacuation. Main meeting point PZ-2.
  - Area D: Access road to the parking. Pedestrians are not allowed.
  - Area E: Buildings: DPN (Smoking room, 1st floor), DP.PPOZ, personal protective equipment not necessary inside.
3. Performing any kind of work, regardless of the above mentioned areas, requires using personal protective equipment following Health and Safety Regulations as well as the internal rules of a given organization. The minimum of the above mentioned personal protective equipment include: the safety helmet, protective footwear and safety glasses.
4. People who are exempt from the duty to use personal protective equipment as mentioned above are: seaman joining and signing off from the tanker as well as firefighting vessel crew signing on and off duty.
